FLEXIBOX

Wall Mounting Cabinets for Lan and Wan Applications

The Flexibox range of wall mount cabinets from President is a thoughtfully designed, easy-to-manage solution for LAN and WAN applications. Manufactured with many innovative features, assembly of the Flexibox at site can be done by any non-technical person in a few minutes, with the use of commonly available tools. Cable entry slots located on the top and bottom panels simplify cable management. On the top cover, cut-outs with grills for fan mounting offer a convenient value-added facility. The Flexibox can be delivered either as a completely-knocked-down (CKD) kit packed in a slim box, or in fully assembled condition, without any compromise on rigidity.
