APC Easy UPS On-Line Li-Ion SRVL RT Ext. Runtime 3000VA 230V, India	SRVL3KRIL-IN (PM: SRVLPM3KRIL+ BM: SRVL48RMBP2U)

Standard Warranty:

1,2,3 KVA internal Battery model: **Standard 3 Years**,
Extendable to 5 Years.

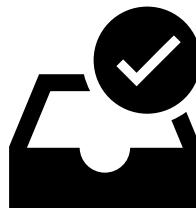

3KVA UPS module with External Battery pack:
Standard 3 Years, Extendable to 5 Years.

Lithium-Ion Battery Pack has **default 5 Years**
Warranty.

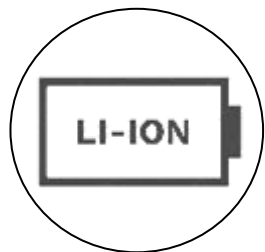

Regulatory Compliances:

UPS: **IEC 62040-1, IS 16242 (Part 1)**, BIS

Battery Pack: IEC 62040-1, IEC 62619, **UN 38.3**, CE, **UKCA**
Electronic circuits and software controls in the battery pack
are evaluated as per IEC 60730-1

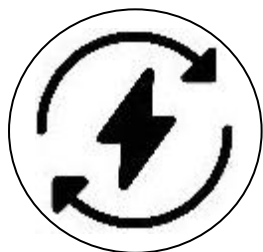

HBN LIB UPS: Key Features

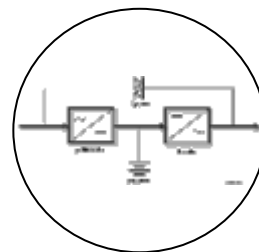

Energy Rich Lithium-ion batteries

2-3x the battery life vs Lead Acid (VRLA) batteries; **2-3X** faster recharge time

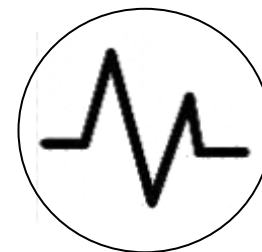

Higher Backup

Lithium-Ion Batteries have **3x the energy density** of a comparable VRLA battery, thus providing **3-4x more backup** for the same form factor.

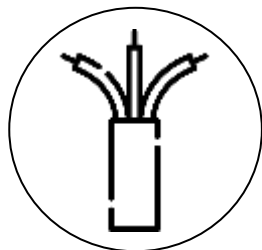

True online double-conversion on-line

Ensures reliable power to essential loads and safeguards from brownouts, line noise, voltage transients and power outages.

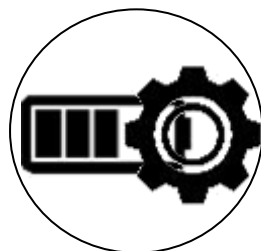

High Power Factor

More real output power in watts 0.9 PF (1, 2, 3 kVA)

Hardwire Connections

2 and 3KVA has integrated fully rated **hardwire connections** for output to provide Customers with flexibility to configure external PDUs.

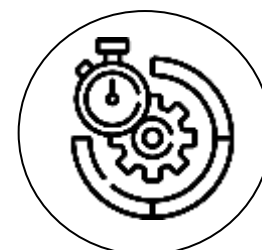

Integrated Battery Management

System comes by default. BMS monitors, controls, optimises the battery usage and life, ensuring **safety, reliability and continued operations**.

Versatile design with Rack/Tower convertible

Provides flexibility to change from a rack to tower installation using default accessories.

High Efficiency

Up to **90%** efficiency in online double conversion mode and up to **96%** in ECO mode.

- UPS Ratings: **50kVA, 100 kVA, & 150 kVA**
- Unity Power factor **KVA = KW** @ 40 Deg C.
- Built-in transformer, flexibility to connect either at input or output..
- Modular Design.
- 50Kw Power Module in 3U size.
- 94% over all Ups Efficiency.
- Dual Redundant Controller.
- Modular Static Switch : 250Kva.
- VRLA & LIB Compatible.
- Cable entry – 50 kVA Bottom, 100 kVA & 150 kVA – Both Top and Bottom available
- 50 kVA: 600 mm (W) x 1980 mm (H) x 990 mm (D)
- 100 & 150 kVA: 800 mm (W) x 1980 mm (H) x 990 mm (D)

Overview

Luminous UPS 3-Phase 30-40kVA — part of the Luminous UPS 3-phase range—is a highly efficient, monolithic, compact UPS with rack & tower convertible that delivers high performance for small size server rooms, network closets as well as critical infrastructure in commercial and industrial facilities.

It is packed with high-value features, including:

- Compact footprint, which allows for more space for IT equipment and revenue
- Up to 95.5% efficiency in normal Double Conversion operating mode to improve TCO
- Rack & Tower convertible, which provides agility / flexibility to adopt any installation requirement
- Parallel capability for 4 UPS for Redundancy or Capacity
- Access to vital critical power information through SNMP connectivity
- The ability to simplify the deployment process with the UPS that is easy to select, easy to configure, easy to start up, and easy to use and service

Key Features and Benefits

- kVA = kW, Unity PF UPS, at 40 Degree C
- Available in 2 ratings LD30KH-Pro 30KVA / LD40KH-Pro 40KVA 3:3 Out Design
- Wide Input Voltage Range (305-477V with 100% load)
- Rack and Tower Convertible
- User Replaceable Dust Filter to operate in harsh environments.
- Compact Footprint - 3U (Rack)
- Lighter Weight of 33 kg for easy handling
- Input Power Factor > 0.99
- Double Conversion Efficiency > 95.5% & > 99% In ECO Mode
- Parallel upto 4 Nos

Add Certainty to Your Data Center – 11K Series

The NetShelter Rack PDU Advanced (11K Series) helps you fit more power in each rack to help you keep up with current demands and plan for the future. But there's more...

Add Certainty to Your Data Center

Alternating phase and color-coded outlets simplify installation, cable management, and load balancing

Intelligent power management options:

- Metered
- Switched
- Switched with Metered-by-Outlet

Up to 48 outlets on a single PDU

4-in-1 combo outlet design acts as any of these outlet types: C13, C15, C19, & C21

50% of the outlets on each PDU are 4-in-1 outlets

Partner Program

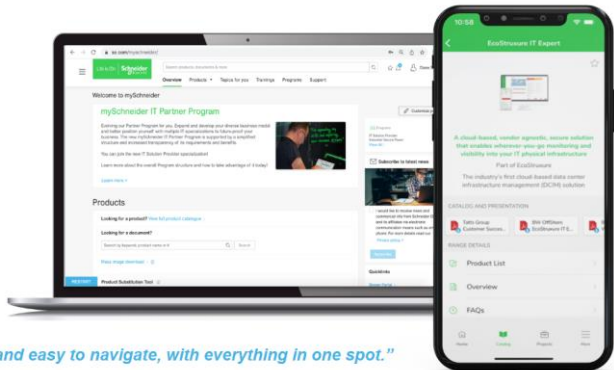

The robust mySchneider IT Partner Program provides you with the tools for success.

Skill development and certification

Sales selection, design and proposal tools

Personalized sales and technical guidance

mySchneider portal and app

"mySchneider is easy to use and easy to navigate, with everything in one spot."

Why the urgency to sell software solutions?

- ✓ Increase recurring revenue
- ✓ Hardware margins are declining while software margins may exceed 80%.
- ✓ The DCIM market is growing at a CAGR of 11.9%.
- ✓ Increase customer intimacy
- ✓ Traditional and new competitors are now selling solutions.
- ✓ We have the advantage now as the market leader.

How to access new Software Advanced Commercial and Technical training in mySchneider

1. Log in at se.com/mySchneider.
2. Go to 'Topics for you' and click on the 'EcoStruxure IT DCIM Solutions' card.
3. You will be redirected to a landing page where you can learn all about our DCIM solutions.
4. Under the new training section click on 'Take the training'.
5. Click on 'Open curriculum' to start the training.

Certification Benefits – Partner locator for differentiation

Access a wide range of benefits

As part of the EcoXpert Partner Program you can access a broad scope of advantages

Discover the many benefits designed to help your business increase profitability, while providing you with the best-in-class support, enablement, and experience.

The EcoXpert Partner Program will allow you to develop new business models, diversify, and stay competitive in the market, with the help of such key benefits as:

Price protection and discounts for registered opportunities

Access to industry-leading design configurators and selectors

Financial benefits

Dedicated account manager

Schneider Electric EcoXpert Program events and networking
